**Computer Coding**
Do you love computers? Do want to code using Scratch? Then this is the camp for you. Take your programming skills to the next level with us. No previous programming/coding experience necessary for this hands-on workshop.

**Come Excited to Code!**
$14.00

**Biological Lab Book: Illustrations from the Microscope**
Are you another Leonardo da Vinci? He could do it all - science and art! Now, so can you! Join a former research scientist and a professional artist to learn how to weave the two worlds of science and art together in your very own lab book.

$14.00

**SPECIAL FX!**
*This workshop, is also back by popular demand, and is a creative double feature.*

Want to create a digital presentation that people won’t forget? Use green screen filming technology as well as Apple software to create a variety of effects to make your presentations exceptional!

$25.00

**FLIGHT: WINGS OVER THE ROCKIES**
May the four forces of flight be with you! Lift, drag, weight, and thrust. Design and build different styles of aircraft and participate in challenges to test your prototypes.

$14.00
